EXPERIENCE

UX / UI Designer

XpertCode at CLARO RD

Jan 2023 - Present

Accomplishments:

- As a User Experience and User Interface (UX / UI) Designer, I provided essential digital resources to the development team, facilitating the implementation of innovative tools to optimize software resolution at the code level.

Working closely with the development team, we worked to streamline the layout process, ensuring a smooth and efficient transition from the prototyping stage.

We provided interactivity and support by providing a relaxed atmosphere in the induction process of the kick-off workshops held for the team. They were able to have several agendas and notes in a personal Notion that I created to facilitate the flow of information provided.

Featured Front-End Engineer

Boyants Group LLC

Jul 2022 - Sept 2022

Achievements:

- As a Front-end developer, I had the opportunity to propose implementations in the architecture and tools that could be used in the medium and long term in the company. Always ensuring an exceptional user experience.
- I transformed prototypes into sophisticated mockups and delivered visually appealing solutions that met user needs. I have actively contributed to success by applying user-centered design principles to ensure intuitive and accessible end products.
- I fostered a design thinking culture in the organization, encouraging empathy for the user and collaboration at all stages of product development. This approach included mentoring and training others in UX/UI design practices and principles.

UX / Ui Designer - Intern

XpertCode at Bamapit agrosoft

Feb 2021 - May 2021

Achievements:

Together with the team we managed to perform requirements debugging, research and suggestions on design ideas for the web and mobile interface. I did extensive research in order to provide design standards and user friendliness. With Figma I was able to create a prototype giving design ideas and other roles that I was able to perform while I was doing this internship were the following:

-Requirements analysis and debugging. -UX/UI designer.

SKILLS

- **Design:** Figma, Sketch, Excalidraw
- **Frontend:** HTML | CSS | JAVASCRIPT | REACT | BOOTSTRAP | TAILWIND CSS (1 year and 3 months experience)
- **Otros:** Gitlab | Github | Jira | Youtrack | Trello | Toggle | Requirements analysis

CERTIFICATES

2021 - 2022 (Finish)
